

A fresh & healthy approach to pasta

At Fasta Pasta, the freshness of all our ingredients is paramount, but none more so than our pasta. We use farm fresh eggs to make our pasta fresh. The soft texture and tenderness of fresh pasta absorbs the full flavour of the sauces and other ingredients. This creates many extraordinary dishes with memorable taste sensations for you to enjoy.

Pasta is not only delicious, it is also nutritious for adults and children alike. It is low in fat, low in kilojoules and a good source of fibre. We use 100% durum wheat pasta because it is a superior quality pasta and it has a lower Glycaemic Index (G.I.).

A lower G.I. means 'slow release' of carbohydrate into the body to give you longer lasting energy.

We also use unbleached flour, which means all our pasta is chemical-free and all natural for you to enjoy!
